## What is GetCareSC.com?

**GetCareSC.com** is a free online tool sponsored by the South Carolina Department on Aging, an office dedicated to helping older South Carolinians live fulfilling, independent lives.

## What can I do at GetCareSC.com?

**GetCareSC.com** is a one-stop shop for seniors, caregivers, and adults with disabilities.

The website provides a statewide directory of service providers, a search tool to help you find assisted living facilities, and access to local information specialists to connect you with the help you need.

### Find Help

We include providers that serve all income levels, because cost shouldn't be a barrier to finding care. Our comprehensive directory includes government programs, charitable organizations, and private companies that use a traditional fee-for-service model.

### Find Assisted Living Facilities

**GetCareSC.com** also provides an up-to-date listing of nursing home and assisted living beds available throughout South Carolina. Searching for a bed can be exhausting—in some areas, there are too few spaces available to meet the need. Our database allows you to see up-to-the-minute information about available beds and search for specific criteria, such as Medicaid or OSS beds.

### Find Someone to Talk To

Our telephone counselors can direct you to local services and help you figure out what programs you're eligible for.
